

KMA's strategy and plan for climate monitoring from satellite

National Meteorological Satellite Center
Korea Meteorological Administration

COMS 16 products

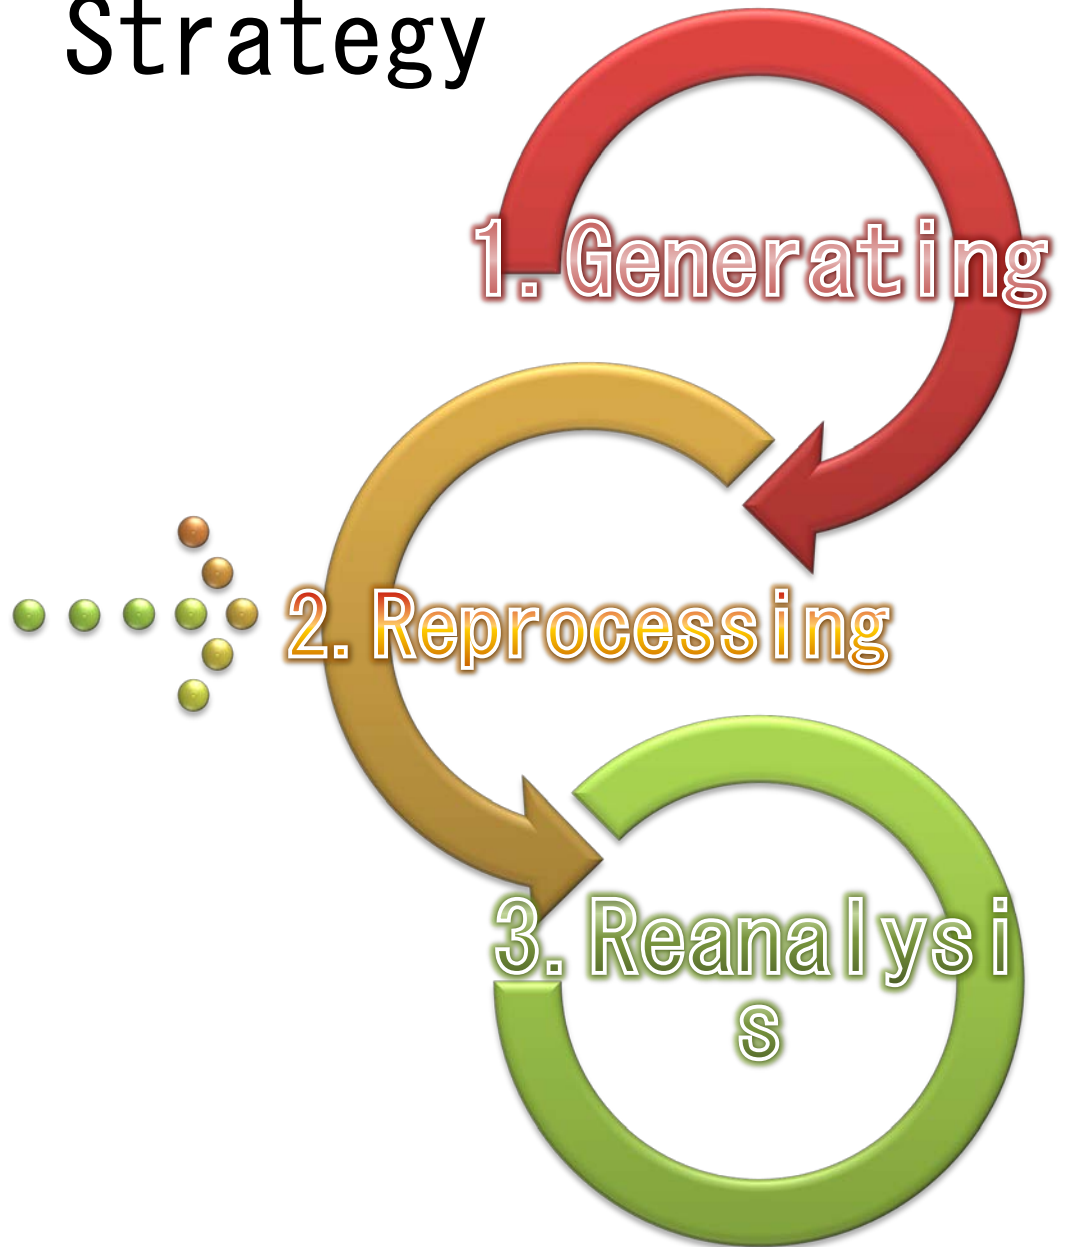

KMA' s GSICS activities

- GEO-LEO inter-calibration
 - IR inter-calibration system for COMS with MODIS
 - GEO-LEO IR radiation Calibration with AIRS/IASI

 - GEO solar calibration
 - Desert target
 - Deep Convective Cloud(DCC)
 - Moon target
- Demonstration products for analysis of errors in each method in 2011 for COMS

Strategy

KMA's plan
for SCOPE-CM

Thank you
